

## Scout and Guide Fellowship UK visits the Isle of Man.

25 members of the UK Scout and Guide Fellowship recently spent

a wonderful few days on the Isle of Man during which time they held their Annual General Meeting in Douglas.

As well as the business conducted at the meeting, £75 was raised towards an appeal by the World Chairman of the International Fellowship on behalf of victims of the recent earthquake in Nepal, this will be topped up to £200 from our emergency disaster fund and sent immediately.

With the generous help of local Trefoil Guild members, many interesting sights and landmarks were visited and even the sun shone as we visited Cregneash, watched the seals gathering in the Sound and saw spectacular views from the top of Snaefell. We travelled by Steam and Electric railways but will have to return to try the Horse Drawn Trams!

We were all impressed by the warm and friendly welcome we received from everyone we met and look forward to another visit with more time to spare!

Join us next year in Shropshire for more fun and fellowship, - watch this space for dates and details!
