### Is it still possible to register?

If there is still room after the registration deadline of 30 April, you are welcome to join us.

Check for availability on our website [www.isgf-euro2023.dk](http://www.isgf-euro2023.dk), which we are constantly updating.

You can register on the registration page – find the link at [www.isgf-euro2023.dk](http://www.isgf-euro2023.dk).

### We have large rooms for groups of 3-6 people

As the conference takes place at a school for young people, we can offer large en-suite rooms for 3-6 people (these are rooms that can accommodate 6-10 young people on a daily basis).

If you are a group who would like to live together, write to us at [isgf-euro2023@sct-georg.dk](mailto:isgf-euro2023@sct-georg.dk) – and we will contact you about the possibilities. This also applies if several people already registered would like to live together.

23 April – St. George's Day – marks the start of the Danish NSGF – Sct. Georgs Gilderne in Denmark.

The day is marked with a nationwide "Eat Out" event, where local fellowships invite all interested parties, not least scouts and their parents, to an outdoor event with primitive cooking as the theme.

# Not a hotel

*Ranum Efterskole College is a school – not a hotel*

On a daily basis, Ranum Efterskole College hosts around 500 students from many countries around the world for several months.

When we arrive at Ranum Efterskole College, there is a duvet and pillow on our bed, as well as a bed linen pack with a sheet, duvet cover, pillowcase and towels. We have to put on our own bed linen and make our own bed. Just as it is the case when the pupils arrive.

In most hotels, you will generally find a variety of care products available for free use.

But here we have to make sure we bring all our personal care products and toiletries, such as soap, hair shampoo, etc. from home. If we need a hairdryer, we have to bring it from home ourselves.

## Electric cars?

As we have previously reported (in newsletter no. 5), there are good charging opportunities for electric cars at Ranum Efterskole College.

There are 8-10 charging points and the price is about 2.50 DKK per kWh.

For payment, use the Clever or Monta app.
